

Ben Howland

- Building a program:
 - a. Who do you surround yourself with? We are in this together.
 - b. Evaluate in recruiting.
 - Who can you get and then zero in on them.
 - c. What to look for in a player:
 - Skill level – look for good passers.
 - Athleticism.
 - Toughness – Physical and mental.
 - Coachability/Attitude/Work ethic.
 - d. Know how you want to play.
- **Defense: (Constant Emphasis)**
 - 1. You have to be a great defensive team to win championships.
 - 2. Do not allow transition baskets. Get the ball to the sideline, get it out of the middle of the floor.
 - 3. No penetration off the dribble.
 - 4. Knowing personnel and tendencies. He likes 2 days of preparation.
 - 5. Always trail a shooter.
 - 6. Big on big to double the post only against good post players. Get good at what you are doing, keep working on it, and keep improving.
 - 7. Contest every single shot. Even, if they are late. Contest the shot to the level of the ball.
 - 8. Blockout and all 5 rebound – PG led the team in defensive rebounding.
 - 9. Take the charge. Cover up and take the hit.
- **Offense:**
 - 1. Shot selection. Teammates get on each other.
 - 2. Transition baskets off of misses.
 - 3. Balance – inside/ outside.
 - 4. Run sets into motion. 30 – 40 sets.
 - 5. Emphasize rebounds.
- Passing drills are very important:
 - Man in the middle (:15-:20).
 - Trapping, passing drill (Diagram).
- Pass fake and shot fake vs. the zone.
- Do as much as you can in 5 on 5, that appeals to the players.
